

Asia Desk

To address the growing number of enquiries, FSPG has established an Asia & Far East desk dedicated to providing a range of services with a particular focus on Chinese businesses, entrepreneurs and private individuals investing in, moving to, or living in the UK. Cantonese and Mandarin are spoken by our specialist consultant.

Whether you are seeking advice on a specific transaction, or you are looking for a trusted partner to help manage your UK affairs our team will be on hand to assist you.

Clients are provided with their own dedicated “client service agent” (CSA) who will co-ordinate all the work we carry out on your behalf.

If required, a client’s CSA will liaise with other personnel within FSPG to provide back-office services such as company formation, bookkeeping, payroll, and company secretarial, or making introductions to other trusted advisers who can assist with recruiting UK staff, obtaining visas and work permits or opening a UK bank account.

For entrepreneurs and business owners

We can advise on:

- The tax consequences of setting up in the UK, including tax incentives
- Cross-border tax issues, controlled foreign company rules and holding company structures
- The acquisition and disposal of UK companies
- UK tax compliance for Chinese business owners, directors and their families

For private clients

We have extensive knowledge of UK tax legislation, particularly concerning non-UK domiciled individuals, which means that we are well-placed to advise Chinese individuals and their families considering relocating to the UK.

We can advise on:

- Property ownership
- Wealth structuring
- Residence and domicile issues
- Offshore trusts and other structures
- Cross-border tax issues
